

1954 Ford F100 Trucks

1954 Ford F100's were nearly identical to 53's. A few minor cosmetic changes took place. A new grille was designed. The headlight buckets were the same as 1953. Optional Deluxe chrome grille trim was unique to the 1954. 1954 Ford trucks were available in a few more paint colors over 1953 trucks. Under the hood, Ford truck engines were changed a lot. The famous Ford Flathead was gone. In place were a series of overhead valve designed engines. Available engines were: 223 Straight 6, 239 V8 and 256 V8.
